

Danial Nasr

Isfahan, Kaveh
+989036505472
imdanielng2008@gmail.com

Full-Stack Web Developer focused on building clean, fast, and high-converting web applications. Specialized in modern frontend frameworks, scalable backends, and performance-first architecture.

EXPERIENCE

Arvand Academy, Isfahan — Full-Stack Web Developer

2024 - PRESENT

Architecting and developing educational and service-oriented web platforms using Strapi, Nuxt.js, and DaisyUI. Currently planning a backend performance migration to ElysiaJS.

A rewrite using ElysiaJS is coming soon.

Niyayesh Print, Isfahan — Web Developer

2023 - 2024

Led the architecture, frontend, and backend development of a production-grade online print store designed for high conversion and scale.

YarNovin, Remote — Web Developer

2020 - 2025

Collaborated on client web builds, managed community platforms, and contributed to frontend feature developments.

PROJECTS

Educational Platform — Nuxt.js & Strapi

Custom e-learning portal built for scalable content delivery and streamlined student management.

E-Commerce Print Shop — Web Application

Architected an online ordering platform for custom print jobs featuring real-time previews and seamless checkout flows.
